## KEY TO CATALOGING

### DEFINITIONS

**SPECIMEN:** An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

**COLOR TRIAL SPECIMENS:** Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

**PROOF:** An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

**COLOR TRIAL PROOF:** A proof printed in a color other than the issued color.

**ESSAY SPECIMEN or PROOF:** A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

**PRODUCTION MATERIAL:** Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

**MODEL:** A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

Description Abbreviations I/C = Issued and Cancelled; I/U = Issued and Uncancelled; POC's = Punched out cancels

Printed on white paper with circle and star watermarks. Signed on bottom. After Alfonse Mucha, Max Švabinský is surely one of the greatest Czech artists of the 20th century. He was born on September 17, 1873 in Krom iž, a small town in South Moravia. There he attended a German school, and then enrolled in the Academy of Fine Arts in Prague. From 1910 on, he was a professor of arts at various art schools. His art work primarily consists of drawings in pencil, charcoal and pen & ink, but he also produced a great deal of commercial graphic or applied art and book illustrations. From this large body of work, his stamp designs in particular stand out. Švabinský is especially known for his numerous portraits of famous persons, many of which can be seen on his stamps. Of his more than 70 stamp designs, more than two thirds are portraits. - 664 Louisiana, Historic Oaklawn Plantation, 1871 Official Notary Document Copy of the 1871 Mortgage Recording the History of the Plantation.** St. Mary Parish, Louisiana, 1871. Large, bound document from Notary Public Charles G. Andry, which describes and details the mortgage enacted by Miss Mary W. Porter, her widowed mother, and sister, who were residents of the St. Mary Parish in Louisiana. The Porter women did this with the New York City firm, Leverick & Co., for the purpose of securing the (rather large) sum of \$94,408.28 to carry on "the cultivation of their Oak Lawn Plantation." The handwritten document includes stipulations such as terms, conditions, mortgage payments, payments owed out of crop yields, etc., and is extremely detailed. Red stamp at the back from the Notary. Fine condition with splitting along fold lines, but in incredible condition for its age. The Oak Lawn Plantation listed throughout the document still exists, and is known today as "Oaklawn Manor." The house was built by Alexander Porter, in 1837, and upon his death in 1844 he bequeathed Oaklawn to his brother, James, the husband and father of the women referenced throughout the document. James Porter died in 1849, bequeathing Oaklawn to his wife, Mary Walton Porter. Following the Civil War, the house was solely attended by Mrs. Walton Porter and her two daughters. With no slaves and few servants, the Porter women were unable to continue raising the fields of sugar cane, the only cash crop of the area; consequently, when a wealthy New Yorker offered to buy the plantation, the ladies had little choice but to accept. This document was most likely the last effort made by the women to maintain their livelihood and way of life. The Oaklawn Manor is on the National Register of Historic Places. Fascinating and unique document which depicts some of the financial agency women had in the post-Civil War era. LINK TO WRITEUP ABOUT THE FAMILY: <http://www.oaklawnmanor.com/foundingyears.htm>. - 668 U.S. Battleship "Illinois" 1898 Specimen Invitation by ABNC for the Launching of the Battleship Newport News, Virginia. October 4, 1898. Specimen Invitation to witness the launching of the U.S. Battleship "Illinois" at Newport News, Virginia, 1898. 5.5 x 7 inches. Black text with illustration of a battleship at top center. Red specimen overprint, POCs. Fine condition, ABNC. USS Illinois (BB-7) was a pre-dreadnought battleship built for the United States Navy. She was the lead ship of the Illinois class, and was the second ship of the U.S. Navy to be named for the 21st state. Her keel was laid in February 1897 at the Newport News Shipbuilding & Dry Dock Company, and she was launched in October 1898. She was commissioned in September 1901. Illinois served with the European Squadron from 1902 to 1903, and with the North Atlantic Fleet until 1907, by which time it had been renamed the Atlantic Fleet. During this time, she accidentally collided with two other battleships. From December 1907 to February 1909, she circumnavigated the globe with the Great White Fleet. From November 1912, the ship was used as a training ship. She was lent to the state of New York in 1919 for use as a training vessel for the New York Naval Militia. The ship was converted into a floating armory in 1924 as a result of the Washington Naval Treaty, and it was as a floating armory, barracks and school that she served for the next thirty years. In January 1941 she was reclassified as IX-15 and renamed Prairie State so that her former name could be given to USS Illinois (BB-65), a new Iowa-class battleship. Prairie State was ultimately sold for scrap in 1956. .... Est. \$100-200

Signed by the United States Marshal. Neither man appears to have belonged to a Native American tribe. Both documents are in Fine condition. - 714 PSA, Inc. 1974 Specimen <100 Shares Odd Shrs Stock Certificate Aviation Rare XF** California. Pacific Southwest Airlines (PSA) was a United States airline headquartered in San Diego, California, that operated from 1949 to 1988. It was the first large discount airline in the United States. PSA called itself "The World's Friendliest Airline" and painted a smile on the nose of its airplanes, the PSA Grinningbirds. Opinion L.A. of the Los Angeles Times called PSA "practically the unofficial flag carrier airline of California for almost 40 years." The airline initially operated as an intrastate airline wholly within the state of California. This strategy which avoided the steep costs from federal regulation would later serve as the model for Southwest Airlines, doing in Texas what PSA had done in California. After the Airline Deregulation Act of 1978, PSA expanded to cities in other western states, and eventually to several cities in Mexico. In 1986 PSA became the first of two airlines that merged into the existing USAir, followed by Piedmont Airlines in 1987. The PSA acquisition was completed in 1988. USAir changed its name to US Airways in 1997. In 2005, after its second bankruptcy filing, America West Airlines acquired US Airways, continuing with the name until it merged with American Airlines in 2013. In November 1995 the PSA name was given to Jetstream International Airlines, becoming PSA Airlines, so that US Airways could preserve the PSA name and trademarks. US Airways had acquired Jetstream International in 1987, when it was a subsidiary of Piedmont Airlines. .... Est. \$50-100

Red specimen overprints and POCs. VF condition, SCBN. Equity Funding Corporation of America was a Los Angeles-based U.S. financial conglomerate that marketed a package of mutual funds and life insurance to private individuals in the 1960s and 70s. It collapsed in scandal in 1973 after ex-employee Ronald Secrist and securities analyst Ray Dirks blew the whistle on massive accounting fraud, including a computer system dedicated exclusively to creating and maintaining fictitious insurance policies. Investigation found that from 1964 onward, as many as 100 company employees had engaged in organized deception of investors, auditors, reinsurers and regulatory authorities. The company created more than 60,000 bogus life insurance policies that it sold to reinsurance companies for a fee. In order to pay the premiums on the policies, Equity Funding created additional bogus policies that they would also sell. Sometimes they would claim the bogus policyholder died and then receive the death benefits from the reinsurance company. An important sidelight was the filing of insider trading charges against whistleblower Dirks. The ensuing case of Raymond L. Dirks v. Securities and Exchange Commission went all the way to the U.S. Supreme Court where Dirks was finally acquitted. The case has been termed historic in helping to define insider trading, as well as the treatment of whistleblowers, analysts and the press. .... Est. **\$80-140**

Lehman Brothers Holdings Inc. was a global financial services firm. Before filing for bankruptcy in 2008, Lehman was the fourth-largest investment bank in the United States (behind Goldman Sachs, Morgan Stanley, and Merrill Lynch), doing business in investment banking, equity and fixed-income sales and trading (especially U.S. Treasury securities), research, investment management, private equity, and private banking. Lehman was operational for 158 years from its founding in 1850 until 2008. On September 15, 2008, the firm filed for Chapter 11 bankruptcy protection following the massive exodus of most of its clients, drastic losses in its stock, and devaluation of assets by credit rating agencies, largely sparked by Lehman's involvement in the subprime mortgage crisis, and its exposure to less liquid assets. Lehman's bankruptcy filing is the largest in US history, and is thought to have played a major role in the unfolding of the late-2000s global financial crisis. The market collapse also gave support to the "Too Big To Fail" doctrine. Rare and historic stock certificate. Est. \$350-700

The company was founded in 1903 as "the Development and Funding Company" by Elon Huntington Hooker, of Rochester, NY. Hooker created the company to utilize the Townsend cell to electrolyze salt into chlorine and sodium hydroxide (NaOH), also known as "caustic soda" and "lye," in a chloralkaline process. Elmer Sperry, founder of Sperry Electric, and Leo Baekeland, inventor of Bakelite and Velox photographic paper, consulted for Hooker to improve the design of the cell. The company was sited in Niagara Falls, NY because of the low cost electricity from the Niagara Falls power project (completed in 1895), the abundance of salt from nearby mines, and availability of water from the Niagara River. **1140 Andes Silver Mining Co., 1876 I/U Stock Certificate Signed by Civil War General George S. Dodge.** Virginia Mining District, Storey County, Nevada. 10 Shares, I/U stock certificate, Ornate title with logo at left, VF with small 2mm tear top left margin as well as small pin holes and 2 small holes from being attached to document. Signed by Geo. S. Dodge as president. Dodge received a historic silver ingot. "The Ingot Recipient, George Sullivan Dodge was a decorated Civil War veteran, who was brought to the West Coast about 1871 to manage the monstrous new silver company in Eureka, the Eureka Consolidated. The mine was so rich that it rivaled the best of the Comstock, ultimately producing over \$20 million from 1873 to 1906 alone. Dodge's office was in San Francisco, right in the center of the Montgomery Street business section (Bank of California, etc.) where most of the financial ends of the Comstock mining barons took place. Dodge appears to have been appointed the first president of the Company, with the attendant job of getting the mine into profitable and large scale production. He was in charge of hiring the best mining men and putting together a mining crew to rival the best on the Comstock. George Sullivan Dodge (August 3, 1838 - August 24, 1881) was a Union Army officer during the American Civil War, a United States consul to Bremen, Germany and a merchant. Dodge, the son of William P. and Nancy B. Dodge (1806-1853), was born on August 4, 1838, in Irasburg, Orleans County, Vermont. Dodge became a prominent merchant. With the outbreak of hostilities in the American Civil War, Dodge entered a volunteer regiment for the Union Army and was appointed colonel in the army's Quartermaster Department. During the war's later years, he served as Chief Quartermaster of the Army of the James under Major General Benjamin F. Butler and later under Major General Edward O.C. Ord. On January 26, 1865, President Abraham Lincoln nominated Dodge for appointment to the grade of brevet brigadier general to rank from January 15, 1865 for his last-minute resupply of beleaguered Union forces at the Second Battle of Fort Fisher (January 13-15, 1865) and the United States Senate confirmed the appointment on February 14, 1865. He later participated in the Battle of Wilmington (February 11-22, 1865). After the war, Dodge served as the United States Consul in Bremen, Germany (1866-1869)..... Est. \$130-260

Vignettes frame the border of the certificate including George Washington, two allegorical figures flanking the Mexican Seal, and a locomotive. All coupons attached at bottom of certificate. The Tehuntepec Company was formed as a result of a grant given to Don Jose de Goray by in 1842 by Antonio Lopez de Santa Anna, the President of the Republic of Mexico. The grant stated the purpose of the company was to open "a line of communication...between the Pacific and Atlantic Oceans, through the Isthmus of Tehuantepec." Through a combination of canals, railroads and steam-carriages, the Tehuntepec Company would provide a fast, commercially feasible link between the two oceans opening a profitable Asiatic trade via San Francisco and Tehuantepec. Support of the concept was widespread and included Judah Benjamin, President Fillmore, Daniel Webster and numerous other notables. Signed by Collis Potter Huntington (1821-1900) as President. Huntington was an American industrialist, and was one of the Big Four of western railroading who invested in Theodore Judah's idea to build the Central Pacific Railroad as part of the first U.S. transcontinental railroad. Huntington then helped lead and develop other major interstate lines such as the Southern Pacific Railroad and the Chesapeake & Ohio Railway (C&O), which he was recruited to help complete. The C&O, completed in 1873, fulfilled a long-held dream of Virginians of a rail link from the James River at Richmond to the Ohio River Valley. The new railroad facilities adjacent to the river there resulted in expansion of the former small town of Guyandotte, West Virginia into part of a new city which was named Huntington in his honor. Huntington, from his base in Washington, was a lobbyist for the Central Pacific and the Southern Pacific in the 1870s and 1880s. The Big Four had built a powerful political machine, that he had a large role in running. He was generous in providing bribes to politicians and congressmen. Revelation of his misdeeds in 1883 made him one of the most hated railroad men in the country. In 1968, he was inducted into the Hall of Great Westerners of the National Cowboy & Western Heritage Museum. .... Est. **\$100-200**

She then wore bloomers and finally rode in a men's riding suit. Peter Zheutlin's book "Around the World on Two Wheels" records her journey. She claimed to be the first woman to "cycle around the world", duplicating a feat that Thomas Stevens had accomplished 10 years earlier. ### 1574 Cornell-Dubilier Electric Corp. 1942 Specimen Bond Delaware, 1942.

\$25 Specimen 4.5% Convertible Sinking Fund Debenture Bond, Black text with yellow border and background. Red specimen overprints, POCs, VF condition, HBN. Cornell-Dubilier Electric Corporation has been manufacturing capacitors for more than a century - 109 years as of this writing to be more precise. That is utterly amazing, especially since they still use the name of the company founder, William Dubilier. In 1933, they merged with Cornell Radio to form Cornell Dubilier Electronics (CDE). If you have been in the electronics field for a while, you no doubt have heard of their capacitors. In fact, William Dubilier was the inventor of mica-based capacitors. According to this obituary in a 1969 issue of Radio-Electronics magazine (he died on July 25, 1969), Mr. Dubilier held 600 patents. I found a newspaper obit that claims Dubilier was offered, but did not accept, a knighthood and pension for life by the British as a reward for inventing a submarine detection device used in World War I by the French and British governments. Mr. Dubilier also invented an electronic flash tube, several radio broadcast systems, and such diverse items as nylon window screens to one of his last developments, in 1966, a sinus-congestion mask..... - 1575 Laboratory for Electronics, Inc. 1971 Specimen Stock Certificate**  
**100 Shrs XF ABN** Massachusetts, Very Early Computer company. LFE was a Boston-based electronics firm that had an interest in ferromagnetic. They produced a drum memory for commercial markets and attempted, in the early 1950s, to capitalize on this by creating systems that would use it in inventory control. Their LFE Guestron machine was a special purpose (non-programmable) relay-based machine but proved inflexible when it came to anything except the more elementary inventory situations. In the later 1950s, they produced a prototype computer under contract with ICL in Britain but this "Diana" project was cancelled in 1958. They produced at least two other storage systems (RASTAC and RASTAD) that were meant to be high capacity random access peripherals to other computers, but these too were unsuccessful. Est. \$40-75

Lionel trains have been produced since 1900, and their trains drew admiration from model railroaders around the world for the solidity of their construction and the authenticity of their detail. During its peak years in the 1950s, the company sold \$25 million worth of trains per year. In 2006, Lionel's electric train became the first electric toy inducted into the National Toy Hall of Fame. ## CONDITIONS OF SALE

### THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

#### BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.  
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%\* on the hammer price is payable by the buyer to the auctioneer (\*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.  
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.  
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.  
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.  
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

#### PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
  - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
  - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.  
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.  
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.  
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.  
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

#### EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.  
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.  
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages.
